

# rejuveniix™

NUTRIFII™  
FIRST STEP THERAPY

An Invigorating  
Energy-Boosting  
Blend of Superfruit  
Extracts and Antioxidants

## You: Turbocharged!

The nutritional choices you make each day can have a profound impact on your life. The glamour of fast-paced, on-the-go lifestyle quickly dims in the face of energy crashes, mental stupor, and a general feeling of poor health. To counteract this trend, a commitment to a nutrient-rich diet and regular exercise is a logical first step toward wellness. To keep the good momentum going, add a supplement to your daily routine that will boost your energy and support your better health goals.

Rejuveniix brings that boost by supporting mental alertness, energy, and an overall sense of wellbeing. This supplement offers a signature array of antioxidants and wholesome superfruit extract combined with a helpful punch of natural energy enhancers. These unique ingredients are specially combined to prevent a crash or letdown hours later by working with your body to increase energy naturally.

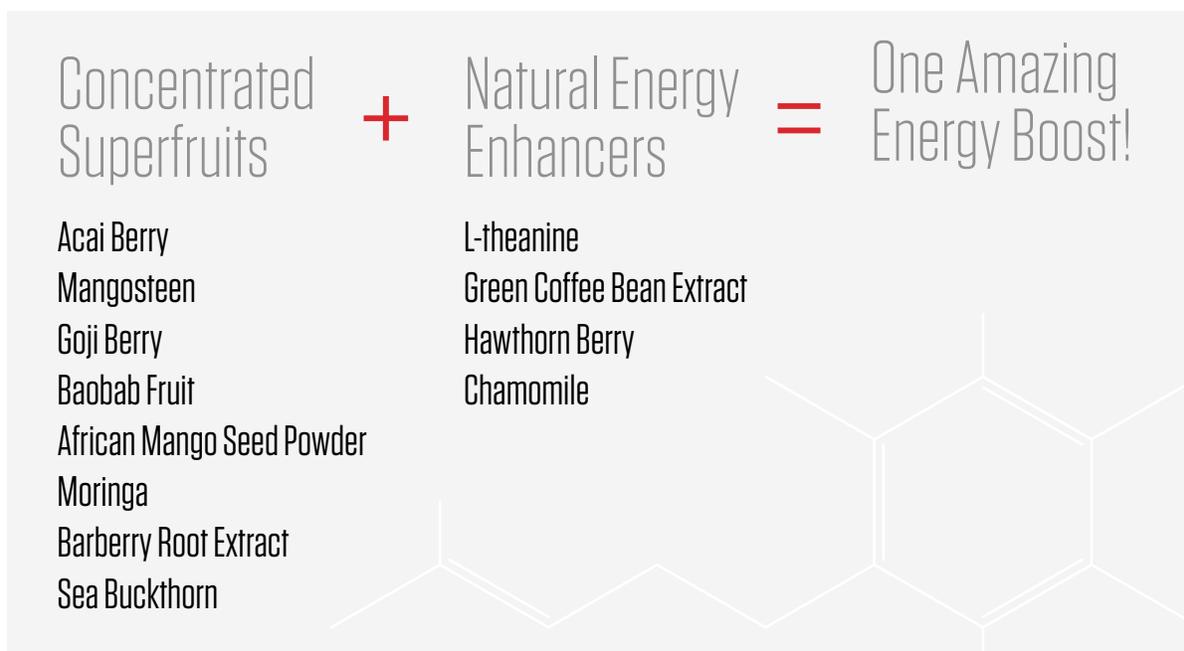

## Experience the Synergistic Effects of Rejuveniix's Super Formula:

- Developed with a proprietary blend of phytonutrients and antioxidants to support natural energy levels.
- Experience significant cost savings with Rejuveniix—where you obtain a combination of powerful superfruits all in one great product.

## The Science Behind Rejuveniix

Scientists studying nutrition and wellness are discovering that certain food combinations can deliver a significant nutritional advantage. A report from the U.S. National Library of Medicine stated, “the health benefits of fruits and vegetables are from additive and synergistic combinations of phytochemicals.”<sup>1</sup> This beneficial synergy is the inspiration for the Rejuveniix formula. Recent studies have also shown that the ingredients in Rejuveniix support clarity of mind and energy, as well as helpful antioxidants that contribute to overall health and wellness.

The way we get our nutrients is also important to our health. Scientists and health experts claim that it is more important to get smaller amounts of antioxidants from multiple sources rather than mega dosages from just one source. This is because different antioxidants work in different ways in order to perform a variety of functions throughout the body. Rejuveniix’s superfruit blend provides a diverse mix of powerful nutrients in order to deliver superior benefits.

## Superfruits for a Super Boost!

### Acai Berry

Acai berries, found in the Brazilian rain forest, are tiny yet potent superfruits that have been used for thousands of years to promote overall health, energy, and vitality. The berry comes from a palm tree known by Brazilians as the Tree of Life. This amazing fruit naturally contains purple pigments known as anthocyanins, similar to those found in blueberries. Acai is highly nutritious with a very unique flavor and texture. These berries also contain as much vitamin C as blueberries, as well as essential minerals including potassium, calcium, magnesium, copper, and zinc. One bottle of Rejuveniix provides acai concentrate equal to six grams of puree—the equivalent of two wine-size bottles of the leading acai juice! Rejuveniix provides an efficient way to add these amazing ingredients to your daily routine.

### Mangosteen

Mangosteen is called the Queen of the Tropical Fruits in Thailand and the Food of the Gods in the French Caribbean. It contains xanthones, a unique class of phytonutrients.

### Baobab Fruit

The fruit of the Baobab tree, often referred to as the Tree of Life, has been valued for centuries throughout Africa, Madagascar, and Australia for its beneficial qualities. The dried fruit pulp is high in vitamin C, many of the B vitamins, and a host of minerals. It has highly soluble fiber content and is right in polyphenolic compounds.

### Barberry Root

Barberry root grows wild throughout many parts of Europe and has been used traditionally not only by Western cultures, but also in traditional Indian and Chinese therapies. The root contains berberine, an alkaloid that has been shown to have a number of key benefits, including mild calming properties.

### Moringa

Native to the southern foothills of the Himalayas, Moringa has been praised for its benefits for thousands of years. The leaves are the most nutritious part of the plant, rich in antioxidants, as well as vitamin B6, vitamin C, vitamin K, beta-carotene, and other key essential nutrients.

### African Mango Seed Powder

Indigenous to the tropical rainforests of Guinea, the African Mango Seed is especially valued for its fat and protein-rich seeds. Oil contained in the seed is abundant in beta-carotene, calcium, and iron, as well as healthy fatty acids that are essential for maintaining optimal health and body function.

### Sea Buckthorn

This berry has a rich history throughout Asia and Europe as a traditional health product. Containing antioxidant vitamins, healthy fatty acids, and other key nutrients, sea buckthorn berries are also high in vitamins C and E, essential minerals, amino acids, carotenoid and phenolic pigments, and phytosterols.

### Goji Berry

Goji berries have been used in China and Europe and in many Chinese traditional preparations for thousands of years. Also commonly referred to as wolfberry, these berries contain antioxidants and particular carotenoids such as beta carotene and zeaxanthin.

## Energy Enhancers With Benefits!

### **L-theanine**

L-theanine is the amino acid found in green tea leaves. Research has shown L-theanine helps create focus and clarity approximately 30-40 minutes after ingestion. One of the greatest benefits of L-theanine is that you can use it without becoming sedated in the process.

### **Green Coffee Bean Extract**

Green coffee bean extract (GCBE) has antioxidant properties similar to other natural antioxidants like green tea and grape seed extract. Studies have found that GCBE is high in chlorogenic acid. In comparison, roasted coffee beans contain cafestol and other compounds associated with the negative effects of using coffee as a stimulant. By using green coffee bean extract, these substances are not present in Rejuveniix.

### **Hawthorn Berry**

Hawthorn has been used traditionally as far back as the first century. According to ancient Celtic folklore, hawthorn could even heal a broken heart. By the early 1800s, American doctors were using extract from the berries for its numerous health-promoting properties. Today, hawthorn is still used for many of the same benefits and more.

### **Chamomile**

Throughout history, chamomile has been traditionally valued for its mellowing properties and is often found in herbal infusions, teas, and even topical preparations.

## Our Commitment to Excellence

We are committed to bringing the best health and wellness products to you by extensively researching modern nutritional science. The ARIIX 100% guarantee is the cornerstone of our quality and we are dedicated to our mission to Unleash the Human Potential for Good.

Nutritional Information			
	Per 100 g	Per portion (1 capsule)	DRI (Daily Reference Intake) %
Acai berry extract	54 g	320 mg	*
L-theanine	5.3 g	31.3 mg	*
Moringa leaf extract	4.2 g	25 mg	*
Barberry root extract	4.2 g	25 mg	*
Coffee bean extract	4.2 g	25 mg	*
Caffeine	4.0 g	23.7 mg	*
Baobab fruit extract	1.7 g	10 mg	*
African mango seed powder	1.7 g	10 mg	*
Mangosteen fruit extract	0.84 g	5 mg	*
Goji berry extract	0.84 g	5 mg	*
Buckthorn berry powder	0.84 g	5 mg	*
Hawthorn berry powder	0.42 g	2.5 mg	*
Chamomile flower extract	0.25 g	1.5 mg	*
